# Cancer screening saves lives.

### Screening Recommendations

These recommendations are for people at average risk for certain cancers. Talk to a doctor about which tests you might need and the screening schedule that's right for you. It's a good idea to also talk about risk factors, such as lifestyle behaviors and family history, that may put you or your loved ones at higher risk.

# Questions to Ask a Doctor:

- What cancer screening tests are recommended for someone my age?
- How often should I get the screening tests?
- Where can I go to get screened?
- How do I schedule my screening tests?
- Will my screening tests (or other costs) be covered by my health insurance?
- What will the screening tests cost if they are not covered by insurance?

# **Cancer Screening Conversation Starters**

- I care about you and your health. Are you getting regular cancer screening tests?
- Did you know there are tests that can catch changes in your body before they become cancer?
- My breast/colorectal/cervical/prostate/lung cancer screening is coming up. Have you scheduled yours yet?
- Regular cancer screening is important. Is there anything I can do to help you get screened, like finding information, scheduling an appointment, or helping with childcare or transportation?
