The following states have presumptive disability laws which recognize that fire fighters are at increased risk for certain illnesses. The laws create a presumption that the specified diseases are job related. Because the laws vary greatly from state to state, readers should use links to review the verbiage of the specific state laws to determine the law’s application. Cod Part: WC = Workers’ Compensation, RS = Retirement/Pension System, GP= General Provisions/Other Section, asterisk (*) = death/disability benefits.
